## AirWave2

A proven performer for protective and void fill applications

The AirWave2 is uncompromising on efficiency speed and quality. With speeds up to 72 feet per minute, the AirWave2 has all the capacity for the most demanding void fill or protective packaging applications. Based on the original AirWave1, it is a proven performer offering the most flexibility and usability in a premium package.

We supply the AirWave2 machine **free of charge** as long as you are buying a minimum of 7 rolls of film per month. **Jumbo rolls are 6600 feet.**

The roll cost is dependent on the number of rolls purchased per month

**7-13 rolls per month: \$275.00/ roll**

**14-41 rolls per month: \$250.00/ roll**

**42 + rolls per month: \$200.00/ roll**

(There are 42 rolls on a skid)
